

SSC Kickball Diamond Set-Up

Each team is required to bring to each game:

Equipment:

- 4 throw-down bases
- SSC approved Kickball
- Scorebook

Safety Bases:

In order to prevent collisions between runners and defensive players, safety bases are used at first base and home plate.

First Base: The base is to be placed on the right side of the foul line at least 6 inches from first base.

Home Plate: The base is to be placed to the left of the foul line at least 24 inches away from home plate. A line is to be drawn in the dirt between the two to enable the runner to touch the safety base or cross the line in a safe manner, in order to score a run.

Ground Rules:

Captains should meet before the start of the game and confirm / agree upon ground rules with regards to boundaries and base set-up.

Home/Away:

To determine the home team (bats in the bottom of the inning), teams can either choose to do a coin toss or rock-paper-scissors.
